On-Site Solutions

Impact

We partner with Impact Networking Solutions to find the right fit for your firm. Together, DigiCOPY and Impact will customize a Facilities Management or On-Site solution for you.

Facilities Management

Your case loads are always changing, and so are the amount of documents involved. With the natural peaks and valleys of work flow, your in-house print facility can frequently be over-staffed or over-worked.

That's where we come in! Our facilities management solutions are designed to accommodate your work-load while

giving you access to a variety of printing and finishing services. We give you increased access to equipment, services and staff through our network while reducing capital, labor and management hours.

On-Site Scanning

If your project cannot leave your building due to case sensitivity, we provide on demand on-site solutions. We bring the equipment and staff needed to your location to ensure your project is completed securely and on time.

DigiCOPY Litigation Center

Our litigation center and state-of-the-art equipment ensure your documents are handled securely and accurately. We're open 7 days a week and accommodate fast turnarounds whether your project is big or small.

Quality Control

Our quality control procedures ensure you get a quality product. We hand check page for page to maintain document integrity.

Security

We offer accurate and confidential handling of all your documents. All of our employees sign confidentiality statements upon hire.
